PRODUCT

sustainable

Technical, functional, minimalist and light - the packable down jacket is one piece of kit you really don't want to leave behind. It has an extremely small packed size and weighs next to nothing. The jacket has an RDS certified down fill. The sustainable TEXASHIELD ECOSPHERE PRO shell fabric is windproof, water repellent and highly breathable. The jacket has reflective logos and additional reflective detailing. It packs down small into one of the two hand pockets for easy portability.
